

Meet My Team

Santa Rosa Associate Post Masters Mental Health Fellowship Mental Health Training Program Bio's

Marcy Bilberry LCSW **Child and Family Psychiatry** **Co-Training Director**

Hello, my name is Marcy Rose Bilberry and I am the Co-Training Director at Santa Rosa. I am a Licensed Clinical Social Worker in the Department of Child and Family Psychiatry. I graduated from Smith College School for Social Work in 1999 and have been working with children, adolescents, and families here at Kaiser for over seventeen years. I have worked in a number of settings and feel privileged to be working at Kaiser Permanente. I joined the Training Program first as a primary supervisor in 2012 and then as a Co-Training Director in 2013. It is an honor to be helping to lead our Post Masters Fellowship Program and I thoroughly enjoy the opportunity to work with new clinicians as they gain the training and experience that help to shape their professional identities. Our staff includes social workers, psychologists, and psychiatrists who have extensive training and experience. The staff here in Santa Rosa are extremely supportive of our Training Program and go out of their way to make sure that Fellows have a rich training experience and feel supported throughout the training year.

Caitlin Maus LMFT **Child and Family Psychiatry** **Co-Training Director**

Hello, my name is Caitlin Maus and I am the Co-Training Director at Santa Rosa. I am a Licensed Marriage and Family Therapist in the Department of Child and Family Psychiatry. I graduated from University of San Francisco in 2012 and have been working with children, adolescents, and families here at Kaiser Permanente for five years. Following graduation, I was given the opportunity to become a post master's fellow in the post master's fellowship program here at Kaiser Santa Rosa. During my fellowship, I was able to complete my hours for licensure, gain invaluable knowledge, and work with dedicated professionals who supported and pushed me to be the best possible provider. I am a new Co-Training Director to the Training Program and am looking forward to working with new clinicians as they navigate towards licensure. I hope that I can provide additional support as I once was a fellow and believe my fellowship to be a pivotal experience in my professional career as a therapist. We are fortunate to have a staff here in Santa Rosa composed of marriage and family therapists, social workers, psychologists and psychiatrists who collaboratively work together not only in the patient's best interest, but in the best interest of one another.
