

Meet Our Team

Fremont Doctoral Internship in Health Service Psychology **Silicon Valley Doctoral Internship Consortium**

Shannon Stovall, PsyD

shannon.e.stovall@kp.org

Silicon Valley Consortium Director **Fremont Doctoral Internship Training Director**

I am a licensed psychologist in the Fremont Psychiatry Clinic and work in child and family services. I am part of the Teen IOP Team (Intensive Outpatient Services) as well as part of the Triage Team. I received my bachelor's degree in psychology and political science and my master's degree in marriage and family therapy. I completed my PsyD at Our Lady of the Lake University in Counseling Psychology and went on to complete my pre-doctoral and post-doctoral training with The Hume Center. My therapeutic approach is to come from a strengths-based, solution focused and narrative lens while incorporating in other evidenced based interventions and theories such as CBT, DBT and ACT. I am truly passionate about my work with children, youth, and families as I feel that systemic work, as well as individual work is necessary for the greatest amount of change and progress. I am honored to be a part of the training program and helping trainees grow and become colleagues in this growing and amazing field.

Renata Way, PsyD

Child/Family & Assessment Supervisor

I am a licensed clinical psychologist in the department of Mental Health and Wellness, child and family division. I obtained my doctoral degree from The Wright Institute in Berkeley, CA. I joined Kaiser in 2018. Prior to Kaiser I primarily worked in community mental health settings like WestCoast Children's Clinic in Oakland, CA where I was a staff clinician after finishing my postdoctoral residency with them. While there, I was trained in Collaborative Therapeutic Assessments. I also had primarily focused on trauma-focused treatment with individuals of the global majority and are marginalized in the US. I also have a primarily affinity for psycho-diagnostic evaluations, and I focus on the evaluation and treatment of neuro-divergent children and teens. I am presently the ADHD team lead and I conduct our autism screenings. I also provide therapy and assessment supervision to our trainees. Theoretically, I tend to employ evidence-based and contextual modalities in my conceptualization and treatment of mental health related disorders. Outside of Kaiser, I have a founded a small group private practice clinic where I focus on assessing neuro-developmental disorders in children, teens, and adults, as well providing therapy for adults.

Traci Barisciano, PsyD

Adult Team Supervisor

I am a part of the wonderful team of clinicians on the Adult Psychiatry team at Kaiser Fremont. I am a clinical psychologist and post-doctoral resident primary supervisor. I started working for Kaiser when I was a postdoctoral resident in 2013. I enjoyed the training opportunities, diverse patient population, and working with collaborative and talented colleagues, and thus why I decided to continue here as a full-time staff. Prior to joining Kaiser, I completed my doctorate degree at Immaculata University. I completed my internship year at Gerard Medical Center which is a community mental health facility in Philadelphia. I worked in the outpatient clinic and on the extended acute care inpatient unit. Currently, my roles include adult clinical psychologist, triage provider, primary supervisor, gender therapist/assessor, and I am also part of the

Dedicated Consultant Team where I provide psychological consultations for patients who are seen in the Emergency Department. My approach to therapy is integrative, as I tailor my approach to each patient while incorporating empirically supported interventions

Yuju Chen, PsyD
Adult Team Supervisor

I am a clinical psychologist and post-doctoral resident supervisor based in Department of Adult Psychiatry in Fremont Kaiser. I joined Kaiser Permanente in 2015. Prior to working at Kaiser, I had worked as a licensed clinician in a variety of settings, including primary care setting, mental health outpatient clinic, and private practice. I received my doctorate degree from California School of Professional Psychology, SF campus, and my master's degree from National Taiwan University. I provide therapy in both English and Mandarin. The theories and skills I utilize in my interventions are mainly from Cognitive Behavior Therapy and Mindfulness - based therapy. I am also influenced by psychodynamic approach and believe in the critical role of therapeutic relationship in interventions. I work with patients with a variety of diagnoses, but have special interests in anxiety, mood disorder, traumas, immigration issues, and women mental health issues. I am proud to be part of our mental health team and looking forward to working with our residents at Kaiser Fremont.
