

Meet My Team

Napa-Solano Mental Health Training Program Bio's

Internship in Clinical Psychology Supervisor Staff

Supria Gill, PhD (Napa-Solano Training Manager)

Dr. Gill received her Bachelor of Arts Degree at UC Davis, and her doctorate in Clinical Psychology from Palo Alto University. Dr. Gill completed her pre-doctoral internship in Health Psychology at the VA Portland Health Care System, and postdoctoral training with an emphasis in Behavioral Medicine at Kaiser Permanente Vallejo/Vacaville Residency Program. Dr. Gill specializes in psychological approaches to health promotion and behavior change in integrated care. Dr. Gill joined the Behavioral Medicine team in Vacaville as a staff psychologist in 2017 following completion of residency. Dr. Gill also serves as the Health Psychology Liaison for the Northern California Regional Mental Health Training Programs.

Dr. Gill is adjunct faculty at Palo Alto University, where she teaches courses in the graduate training program. Dr. Gill has co-authored several papers related to utilization of healthcare services, novel depression interventions, as well as the effects of perceived stress on psychosocial functioning. Dr. Gill serves as a primary individual supervisor for the Psychology Doctoral Interns.

Neda Soussanbari, PsyD (she/her) (Internship Co-Training Director)

Dr. Soussanbari received her B.S. from the University of California, San Diego (UCSD) and her Psy.D. from The Wright Institute. Dr. Soussanbari completed her predoctoral internship and postdoctoral residency at VA Sierra Nevada Health Care System and Kaiser Vallejo Medical Center, respectively, where she received training in providing behavioral medicine services. After completing her residency, Dr. Soussanbari joined Kaiser's staff as a clinical psychologist. Dr. Soussanbari is now the Co-Training Director of the internship program. Dr. Soussanbari serves as a primary individual supervisor for the Psychology Doctoral Interns.

Amanda Devane, PhD (Internship Co-Training Director)

Dr. Devane received her BA in psychology from the University of California, Santa Cruz (go banana slugs!) and earned her Ph.D. in clinical psychology with an emphasis in trauma from the University of Colorado Colorado Springs. She completed her clinical internship at Kaiser Permanente Fresno working in the intensive outpatient program and as a generalist practitioner

with adults. Dr. Devane enjoyed working for Kaiser so much she completed her postdoctoral residency with them in Vallejo, continuing her work with the general adult population and working as a trauma specialist with adults. Now Dr. Devane works as a trauma specialist at Kaiser Fairfield and is joining the training team as co-training director of the internship program.

Janice Lehman, Psy.D (she/her) (Vacaville Adult and NSA Eating Disorder Teams, Individual Supervisor)

Dr. Lehman received her B.A. in Psychology from the University of California, Santa Cruz, in 2003. She earned her doctoral degree in Clinical Psychology at the California School of Professional Psychology/Alliant University, San Francisco, in 2007. She completed her doctoral training at California State University, Sacramento Counseling and Psychological Services. Dr. Lehman joined Kaiser Permanente in 2007 as a postdoctoral resident with the Kaiser, Oakland, Eating Disorder Treatment Program, where she worked with both children and adults struggling with eating disorders and concurrent psychiatric issues. Dr. Lehman then went on to join the Kaiser, Fremont Psychiatry Adult Team as an eating disorder specialist. Her research has focused on the treatment of eating disorders and body image concerns in Asian American populations. Dr. Lehman has co-authored a chapter in the “Handbook of Adult Psychopathology in Asians: Theory, Diagnosis, and Treatment,” edited by Edward Chang (2012). Dr. Lehman began working in the Vacaville clinic in 2013. In September 2016, she became Site Training Co-Director for Vacaville/Vallejo Postdoctoral Residency programs and in 2019 became the Site Training Director for the Vacaville and Fairfield clinics. Dr. Lehman is an active member APA as well as a member of the Kaiser Permanente Regional Eating Disorder Best Practices committee to keep abreast of the latest developments in treatment for eating disorders. Dr. Lehman coordinates the Napa/Solano Eating Disorder Multi-Disciplinary Consultation team. She also co-facilitates the DBT Skills Training Group, and the Eating Disorder Changes Group in the Vacaville Adult Psychiatry Clinic. In addition to her training director duties, she supervises

individually in the Practicum Externship and Postdoctoral Residency programs as well as provides group supervision for residents.

**Priscilla Reinicke, Psy.D (Behavioral Medicine Team
Vacaville, Individual Supervisor)**

Dr. Reinicke received a BA in psychology from UC Davis, an MS in Mental Health Counseling at Suffolk University in Boston, and a doctorate in Clinical Psychology at The Wright Institute in Berkeley. She completed pre-doctoral training with KP in Psychiatry, focusing on intensive outpatient programs (IOP), ADHD evaluations, and adult individual therapy. In her postdoctoral residency, Dr. Reinicke joined the Trauma Surgery team at Kaiser's Level II Trauma Unit, as well as the Behavioral Medicine team in OB/GYN. Dr. Reinicke transitioned into a permanent role with the Behavioral Medicine team in 2023 where she currently serves as a bilingual (English-Spanish) psychologist within primary care, as well as a secondary supervisor in the internship and postdoctoral residency programs.

**Jared Cozen, PsyD, LMFT (he/him) Vacaville, Adult Uplift Team,
Individual Primary Supervisor**

Dr. Cozen received his doctoral degree in Combined-Integrated Clinical and School Psychology at James Madison University, Virginia. He completed his doctoral internship at the Behavioral Medicine Department at Columbia Valley Community Health, a Federally Qualified Health Center. He joined Kaiser Permanente, Antioch as a postdoctoral resident in the Intensive Outpatient Program in 2013. Since that time, he has worked at Kaiser Permanente medical centers in Antioch, Oakland, and Vacaville. He has worked in the Intensive Outpatient Program, the Case Management Program, the Depression Recovery Program, the Trauma Recovery Program and the Uplift Program. Dr. Cozen serves as primary individual supervisor in the internship and post-doctoral residency programs. Dr. Cozen utilizes a client-centered, integrative, evidence-based approach to therapy. His other clinical specialties include EMDR, ACT and Internal Family Systems.

Sasha Melnikova, Psy.D (Behavioral Medicine Team Napa, Vallejo Consult Liaison Team, Group Supervisor)

Dr. Melnikova received a BS in Psychology with an emphasis in biology and a BA in Russian Language from UC Davis and her Psy.D from the California School of Professional Psychology at Alliant International University, San Francisco. Dr. Melnikova completed her doctoral internship in York Pennsylvania with WellSpan Philhaven CBT and completed her postdoctoral residency in Kaiser Vacaville on the Trauma Surgery and Behavioral Medicine teams. Dr. Melnikova then transitioned into a permanent role on the behavioral medicine team working out of Napa family medicine. More recently she also joined the consult liaison team at the Vallejo hospital where she completes 5150 assessments in the emergency department and hospital floors. Dr. Melnikova is also a group supervisor in the internship program.

Simeen Shaikh, Psy.D. (Behavioral Medicine Team Vallejo, Individual Supervisor)

Dr. Shaikh is a licensed clinical psychologist who earned her Psy.D. from The Wright Institute and has a M.A. in Counseling for Mental Health and Wellness (LPCC) from New York University, and a B.A. in International Studies from UC San Diego. She completed her predoctoral training at the Brooklyn VA Medical Center, where she specialized in health psychology and integrated behavioral health care across primary care, palliative care, and oncology settings. She subsequently completed her postdoctoral training at NYU Langone Health. Dr. Shaikh joined the Behavioral Medicine team in April 2026 as a psychologist within primary care.

Rachel Morton, PsyD (DBT Intensive Team Fairfield, Assessment Group Supervisor)

Dr. Morton graduated from Adler University in Chicago, IL in 2023. She completed her doctoral internship at Kaiser Permanente Fresno Medical Center, working as a generalist with adults and a focus on health psychology. She completed her post-doctoral residency

at Kaiser Vacaville/Fairfield, working as an adult generalist and in the adult eating disorder outpatient track. Currently, Dr. Morton works at the Fairfield Mental Health Clinic and primarily works on the adult DBT Intensive team. In addition to that, she also completes adult psychological testing focusing on testing for ADHD, ASD, and psychodiagnostic evaluations. When she's not at work, she's spending time with her dog, Nala, or at Disneyland.

Luis Plascencia, PsyD (Individual Supervisor)

Dr. Plascencia earned his Psy.D. in Clinical Psychology in 2023 from the University of San Francisco. Prior to his doctoral education, he completed a Master of Arts in Mental Health Counseling, a Master of Education in Psychological Counseling, and an Advanced Graduate Certificate in Sexuality, Women, and Gender Issues in Psychology and Education from Teachers College, Columbia University in New York City. Dr. Plascencia's clinical training includes working in various treatment settings including community mental health clinics, psychiatric inpatient, integrated behavioral health settings, outpatient hospital settings, and forensic work with adults. He completed his predoctoral internship with Marin County Health & Human Services in their Behavioral Health & Recovery Services Program in their Latinx Family Health Track and went on to his postdoctoral training with Kaiser Permanente's Sacramental Valley Training Consortium in the Psychiatry Department.

His clinical focus includes working with adults across the life span managing issues of anxiety, mood disorders, trauma, and other psychosocial stressors. Trained in relational and psychodynamic practice, Dr. Plascencia understands the importance of understanding attachment, relational patterns, and systemic/environmental issues that contribute to mental health challenges. His treatment approach includes both processing emotions and issues of the past while learning Cognitive Behavioral and Acceptance and Commitment treatment skills to help with the present by developing a sense of agency and control. As Bilingual (Spanish)- Bicultural clinician, Dr. Plascencia understands the

importance of incorporating conversations of social identity into the dialogue of mental health and how much of a critical component it can be. Other clinical interests and populations that he focuses in include individuals from the BIPOC community, Immigrants, and LGBTQIA+ individuals.
