

Meet My Team

Santa Rosa Mental Health Training Program Bio's Associate Post Masters Mental Health Fellowship

Caitlin Maus LMFT Training Director

Hello, my name is Caitlin Maus and I am the Post Masters Training Director in Santa Rosa, CA. I am a Licensed Marriage and Family Therapist and I graduated from University of San Francisco in 2012. Following graduation, I was given the opportunity to join the post master's fellowship program here at Kaiser Permanente in Santa Rosa. During my fellowship, I was able to complete my hours for licensure, gain invaluable knowledge, and work with dedicated professionals. Over the course of my career, I have worked with adults, children, adolescents, and families. As the Training Director, I look forward to supervising and working with new clinicians as they navigate towards licensure. I hope that I can provide additional support as I once was a fellow and believe my fellowship to have been a pivotal experience in my professional career as a therapist. We are fortunate to have a staff here in Santa Rosa composed of marriage and family therapists, social workers, psychologists, and psychiatrists who collaboratively work together not only in the patient's best interest, but in the best interest of one another.

Additional primary and group supervisors for the 2023-2024 training year are currently being identified.
